

Overview of Junior Primary

Introduction

Our students' schooling journey starts here!

From the first day of Foundation until the end of Grade 2, experiences in Junior Primary school play a formative role in a student's formal schooling journey. Purposeful learning activities ignite curiosity, harness creativity and inspire a passion for life-long learning. Guided by our supportive and nurturing teachers, Junior Primary students develop self-confidence as well as a sense of self-mastery and independence. Healthy social interactions with teachers and peers enhance social skills. Each year, parents entrust us with their children's care and development; we are honoured to watch them flourish as the years unfold.

Our Approach

Our Inquiry-based Curriculum enables our students to explore age-appropriate concepts from many different perspectives. It encourages them to be empathetic and thoughtful learners and provides the opportunity for wonderful exploratory activities through our play-based approach.

Living in a global society of immense choice and diversity, the Junior Primary School endeavours to empower children to make values-based decisions which are aligned to our Islamic faith. We take great care to create a positive and supportive learning culture built on trust, compassion and accountability for self, others and the environment.

Our Curriculum

A broad range of extra-curricular activities and enrichment programs complements the teaching and learning in our school. Technology is embraced to increase student engagement and enhance teaching and learning experiences. We pride ourselves in having the highest expectations of what students can achieve academically, socially and spiritually.

Strong literacy and numeracy skills established during these critical years allow students to explore other areas of the curriculum with confidence. Regular Qur'an, Islamic studies and Arabic classes also form a comprehensive curriculum that infuses Islamic content and concepts as part of the Victorian Curriculum.

Our Approach to Learning

Minaret College's approach to learning throughout a child's schooling years is rooted in Islamic values and principles. It nurtures the physical, social, emotional, and spiritual wellbeing of each student.

Schools are dedicated to specific year levels and address the needs of children as they journey through life's unique development stages. Our curriculum and approach provide opportunities for all students to explore their interests and develop skills, all within a supportive and respectful learning environment.
